### THE VOICE OF NOW!

It is the present, the today, the NOW in which we are interested. Shakespeare wisely says:

"Tomorrow never yet"

On any living mortal rose or set."

It is the printed page which deals most intimately and with the greatest detail in the movements of the present. It is THE VOICE OF NOW proclaiming to the world the things that are happening today. The government of the United States is NOW gravely concerned in certain aspects of the war in Europe and has had thrust on it several serious international problems which are NOW in process of solution. The American farmer is NOW interested in this titanic struggle, for his interests are being affected by it today and will be tomorrow, and he wants to keep in close touch with it NOW.

EVERYBODY is interested in the cotton crop from the time of its planting to the days of its harvesting and marketing. They want to know "the NOW" in all that pertains to the great Southern staple; they want to know "the NOW" of all other agricultural markets, the latest in modern farming, the facts of the warehousing problem, and all else that pertains to the progress of the time in every theater of life.

The tens of thousands of men and women who know the Semi-Weekly Farm News, now it is "THE VOICE OF NOW," telling in direct and positive tones of what is going on at home and abroad.

"Now is the time Now is the hour."
